

## **WEEKLY MARKET PRICES REPORT FOR THE WEEK ENDING 27<sup>TH</sup> MAY, 2022**

---

### **1.0 Introduction**

The leeway by the government for the millers and grain trader to import non-GMO maize with an intention of curbing the hiking prices of food and looming food crisis in the country has been faced with invalidities and hence rejected. The millers have cited high landing cost (Kshs.6000) and short window period (3 Months). Compared to the highest price of maize locally being Kshs. 5005 makes the waiver infeasible for it subjects the consumer to a higher cost of flour than it is currently at Kshs.150.

The prices for other cereals apart from maize and wheat have not had significant changes for a while because they are reliably produced locally.

As the topdressing season kicks off the price for 50KGs has shot to Kshs.6301 from Kshs.5699 the previous week on average countrywide.

### **2.0 Food Situation**

Approximately 3.5 million Kenyans in 23 ASALs counties are starving due to prolonged drought. Interventions through distribution of relief food have been initiated by the government (Business Daily 25<sup>th</sup> May 2022).

**Weather** - Rainfall is expected over several parts of the Highlands West of the Rift Valley, the Lake Victoria Basin and the Central and South Rift Valley as well as over a few areas in the Highlands East of the Rift Valley, the Coast and North-western Kenya. The rest of the country is likely to be generally dry. Both daytime (maximum) temperatures and night time (minimum) temperatures are likely to be moderate (Meteorological department)

**GSoko** - Traders in assorted cereals are called upon to send their sale offers to GSoko Trade Desk via [gsoko@eagc.org](mailto:gsoko@eagc.org).

Submitting of offers can be done through country offices or the GSoko line : **+254 712 652104 (also available on whatsapp)**.

GSoko Trade Contract will be done upon negotiation and agreement of the terms of trade. EAGC will charge a facilitation fee to be agreed by the trading parties (RATIN)

### 3.0 Maize

The maximum price 90KGs bag of maize rose to Kshs.5005 in Nyamakima Nairobi; Kshs.205 higher than it was traded in Butere Lake Western at Kshs.4800 in the previous week. The National average farm gate and wholesale price for 90Kgs bag of maize during the week was Kshs.4009 and Kshs.4298 respectively.

The minimum farm gate and wholesale prices were Kshs.3100 and Kshs.3600 respectively as the commodity was traded in Ishiara, Northern Region **(See Annex 1)**.

### 4.0 Beans

Yellow beans had the highest maximum price for a 90KGs bag being traded at Kshs.12000 in Eldoret followed by Rosecoco at Kshs.11200 in the same town.

The National average prices of beans experienced an insignificant change from the previous weeks as Rosecoco, Red haricot, Mwitmania and Yellow Beans traded at Kshs. 8089, Kshs. 7850, Kshs. 7609 and Kshs. 8023 respectively **(See Annex 2)**

### 5.0 Fertilizer

The demand for the top dressing fertilizer is currently high and it is for this reason the prices for the top dressing have shot with C.A.N hitting the highest at Kshs.7350 in Mombasa followed by Urea at Kshs.7000 as was traded in most markets in North Rift and Lake Western **(See Annex 3)**

### 6.0 Green Grams

The National average price for a 90KGs bag of green grams has risen by Kshs.334 to Kshs.10715 from the previous week's average price of Kshs.10381. The National average retail price for 1KG was Kshs.144. The Maximum retail price per Kilo was Kshs. 200 in Nyamakima while the Maximum wholesale price was Kshs.14400 in Maralal and Olenguruone. The least wholesale price was Kshs.9000 in Maragua **(See Annex 4)**
