## PRESS RELEASE

### CLARIFICATION ON THE SUBSIDISED FERTILIZER BEING DISTRIBUTED BY THE NATIONAL CEREALS AND PRODUCE BOARD (NCPB)

(Nairobi, 23<sup>rd</sup> September 2022) The National Cereals and Produce Board (NCPB) is currently distributing Government sponsored subsidized fertilizer for the 2022-2023 Financial Year short rain season to registered farmers.

NCPB has a consignment partnership arrangement with reputable fertilizer manufacturers and firms to avail the fertilizer for distribution under the subsidy programme. In this regard, the Board is only working with those fertilizer suppliers it has entered into commercial arrangements in line with legal and statutory requirements.

This is therefore to notify members of the public and all our stakeholders that UralChem does not have a working arrangement with the Board and **neither has it made any donation for fertilizers** for distribution to farmers.

In addition, the company is not an existing partner to NCPB and for that matter, the information circulating in various platforms that it has made a donation for fertilizers is not known to the Board.

TITUS MAIYO  
**FOR: MANAGING DIRECTOR**

**NCPB IS ISO 9001:2015 CERTIFIED**
